WASHINGTON, D. C., TUESDAY, JANUARY 15, 1935

ENTERED AS SECOND-CLASS MATTER  
POST OFFICE, WASHINGTON, D. C.

## 'Stanley in Africa' Subject of Second Student Broadcast

### Women Take Parts for First Time; Tryouts to Be Held February 5

Tryouts for the second of the Student Radio Programs, "The World Builder," which will be broadcast over WMAL in the middle of February, will be held Tuesday, February 5, at 8 p. m., in Building M, Room 12. The program will deal with the Stanley Expedition in search of Dr. Livingston, the famous scientist, and will require a cast of 16.

There will be five women's parts, two of which will be leads; and 11 men's parts, five of which will be leads. Prof. Douglas Bement, in charge of the program, has asked particularly that all members of the cast of the last production be present at the tryouts.

#### First Play Praised

The first of the productions, "The Man Who Built a World," which was heard over WMAL last month, had as its theme, the life of Simon Bolivar, the "George Washington of South America," and has attracted a great deal of favorable comment.

Letters have been received from Dr. Leo S. Rowe, director-general of the Pan-American Union, and from Dr. Gil Borges, assistant director-general, expressing the thanks of Latin American countries, and complimenting the cast. The Hon. Henri De Bayle, of the Nicaraguan Legation, has also expressed his congratulations. Shannon Allen, dramatic director of WMAL, was very enthusiastic and complimented the University on being the first in the field with a student-written, student-acted radio program.

#### Bennett Financed Trip

The facts of the story used in the second episode reveal that the Stanley Expedition was backed financially by James Gordon Bennett, Jr., editor of the New York Herald. As Livingston had much valuable scientific data with him, Bennett wished to secure a journalistic scoop by being the first to publish it. He therefore selected Stanley, one of his reporters, to head the party which, after many hardships, found the scientist. The latter chose to remain in Africa, and later died there, but the data he had accumulated was brought back and published.

## Glee Clubs Make Two Appearances

### Will Sing Before Board of Trade, Advisory Board of Masonic Clubs

More than 100 members of the men's, women's, and alumni glee clubs, the largest number of singers which Dr. Robert Harmon has ever directed at one time, will make two public appearances this week.

The clubs will sing before the District of Columbia Board of Trade at its meeting at the Mayflower Hotel this evening, and before the guests of the National Advisory Board of Masonic Clubs at its dance at the Willard Friday evening.

### Amis Will Speak To Liberal Club

Fernando Amis will speak to the Liberal Club on the Far Eastern-American Night program Thursday at 8 p. m. in Corcoran 10. "Philippine-American Relations" will be Amis' subject.

A secretary of the Japanese embassy also will speak on "Japan and its Relation With the Western World."

Howard Johnson, the club's representative to the Unemployment Conference at the Washington Auditorium on January 5 and 6, and the National Youth Congress on January 4 and 5 at the Masonic Auditorium, gave a report on the convalescence last week.

### J. Edgar Hoover Speaks At Luncheon Saturday

J. Edgar Hoover, '17, director of the Division of Investigation of the Department of Justice, will be the guest of honor and speaker at the General Alumni Association luncheon to be given at 1:15 p. m. Saturday at the Mayflower.

All alumni are invited to attend the luncheon, at which Charles Baker, president of the Association, will preside. Assisting Dr. F. A. Hornaday, chairman of the committee on arrangements, are Mrs. Joshua Evans, Jr., May P. Bradshaw, and Paul E. Shorb.

## Weinberger Picked to Direct Second Cue and Curtain Play

Harold A. Weinberger

## Russian Physicist Serves University As Visiting Prof.

### Dr. Jorg Gamow to Teach Nuclear Physics; to Give Lectures

Dr. Jorg Gamow, eminent Russian physicist and leading exponent of the study of atomic nuclei, will be a visiting professor at the University during the semester starting January 31.

He will teach a course in nuclear physics (physics 274 Tuesdays, Thursdays, and Saturdays at 5 p. m.). During the semester he will give five public lectures on modern physics, and will give lectures before a group of scientists on atomic physics. These lectures, which will be started at the Bureau of Standards, will be continued in the new science building when it is completed.

Extended Studies  
Dr. Gamow, who is 32 years of age, received his doctor's degree from the University of Leningrad in 1926. He studied on a research fellowship at Gottingen University in Germany, where he developed his theories of the nucleus of the atom and why radium emits alpha particles. He also studied at the Institute of Theoretical Physics at Copenhagen, Denmark, and at Cambridge by virtue of a Rockefeller fellowship.

In 1931-32 he was master of research in the Academy of Science in Leningrad. Last summer he was an invited lecturer before the symposium on theoretical physics.

(Continued on Page 4.)

## Blanche Horner Signally Honored

### Student's Painting Selected for Exhibit in Corcoran Art Gallery

Blanche Horner, a student at the University, was signally honored by the Washington Society of Artists when her landscape "North Truro" was selected from a large number of others for inclusion in the 44th annual exhibit of the Society being held in the Corcoran Gallery of Art this week.

The contest was open to artists from Washington and vicinity; each competitor being allowed to enter three works that have not previously been exhibited. From among these, 77 pieces representing several forms of art and sculpture were chosen for exhibition.

## Ennes Announces 5-Point Plan For G. W. Press Association

In an effort to provide a comprehensive all-year program for publications which are members of the George Washington Scholastic Press Association, Howard Ennes, director, announced yesterday a new five-point plan for the administration and unification of scholastic press activities.

The new arrangement includes the establishment of a news service to supply high school papers with University news and special feature articles of interest to their schools; extension of the critical service by holding, for the first time, a mid-year contest for high school newspapers; the revision and distribution of a standard style sheet; a contest, open to the art departments of all schools whose papers are members of the Association, planned to produce an official design for the Association seal; and two individual group contests open to staff writers of high school papers.

News Service Organized  
The most important point of the new arrangement is, according to

### Club Follows Policy of Using New Coach for Each Production

In accordance with the policy adopted last fall, of employing a new director for each of this year's plays, Cue and Curtain announced Sunday the appointment of Harold A. Weinberger to direct its second production of the season, which will be presented early in March.

Mr. Weinberger, who has been actively engaged in dramatic production for 12 years, was for five seasons prominently associated with Ben Iden Payne, at the Co-operative Playhouse in Pittsburgh, taking part in both acting and technical branches of the work. He was one of the organizers of this group, now known as the Pittsburgh Civic Playhouse.

Directed Roadside Plays  
Since coming to Washington he has directed two plays, "Welcome to His Excellency," and "The Tavern," for the Roadside Theatre last summer, and "Ladies of the Jury," for the Drama Guild, this fall.

Among the well-known roles he has played are those of General Northrup in "The Queen's Husband," Matt Burke in "Anna Christie," and "Killer" Mears in "The Last Mile."

Mr. Weinberger is now office manager of the Washington branch of Metro-Goldwyn-Mayer, with which organization he has been connected since 1926.

## Wells Appointed Sociology Prof.

### Will Fill Vacancy Created By Death of Dr. Dudley W. Willard

Dr. Carl D. Wells, former professor at the University of Southern California, has been appointed assistant professor of sociology to fill the vacancy caused by the death of Dr. Dudley W. Willard.

Professor Wells is at present field supervisor of social work of the State Department of Administration of California.

In addition to holding a professorial chair at Southern California, Dr. Wells has taught at Texas Christian University, Ft. Worth, Tex. He holds the degrees of Bachelor of Arts from Drake University, Master of Arts from the Pacific School of Religion, and Doctor of Philosophy from the University of Southern California.

## Alumna Receives Second Prize In National Exhibit

Norma Bose, '17, was awarded second prize in a national exhibit of work of women artists held recently in New York.

Miss Bose also attended Corcoran Art School and Columbia University, where she received her M. A. degree. She is now an art teacher at Roosevelt High School.

## Debaters to Meet In Corcoran Hall

A meeting of the men's debate squad will be held tonight in Corcoran 16 to assign teams to take part in the first debate of the season, against the University of Puerto Rico, February 21.

The subject of the debate will be: Resolved: That the nations should agree to prevent the international shipment of arms and munitions.

(Continued on Page 4.)

## Varsity Men, Coaches to Pick 'Most Valuable' Player

Selection of the most valuable player on the George Washington football team, for the award of the Omicron Delta Kappa prize, will no longer be made by sports writers on Washington newspapers, according to action taken at a meeting of ODK held Thursday in the

## Heckel Presents Profit From Prom To Frolic Group

### Deficit Drive Committee Receives First Gift; Fagelson Head

As the first movement in the 1935 Freshman Frolic Deficit Drive, Al Heckel, president of the Junior Class, presented the profits of this year's Junior Prom to the deficit committee fund. This was the first contribution made, and was presented by the class that gave the ill-fated Frolic.

The committee has already conferred with hotel and orchestra officials in an effort to make a fair financial settlement with both, and has announced that contacting of campus organizations will begin immediately following the start of the second semester.

All funds received by the committee will be turned in to the bursar's office to avoid possible mistakes.

James Kinsell has been appointed office manager of the drive, with a secretarial staff composed of Kathleen C. Bulow, Katherine Bour, Ruth Fox, Hood Hoover, and Virginia Seaman. Lewis Lloyd has been made a member of the organizations committee.

## Croissant Changes Text Book Used In Rhetoric Classes

"Modern English Readings" will be substituted for Dean William A. Wilbur's "Rhetoric" as the text for freshman rhetoric classes next semester, according to an announcement made Saturday by Prof. DeWitt Croissant, who has conducted the classes since Dean Wilbur left.

The plan of weekly themes followed during past years will be continued, Professor Croissant explains; but they will be based upon the new book by Loomis and Clark, which is an introduction to modern literature of the nineteenth and twentieth centuries. Dean Wilbur's book has been in use for a approximately 20 years.

## Draper Reports \$20 Profit Made On Pledge Prom

### Surplus Will Be Used to Buy Keys for Members, Scholarship Cup

Maurice Draper, president of the Interfraternity Pledge Council, announced Sunday night that the Pledge Prom, staged Saturday night at the Kennedy-Warren, grossed approximately \$20 over all expenses.

The surplus will be used to purchase keys for members of the Pledge Council, an activities cup for scholarship, and possibly a page in the Cherry Tree.

The cup will be presented to the pledge group attaining the highest scholarship rating for the semester.

A meeting of the Pledge Council will be held Wednesday night at 8:30 in the Sigma Phi Epsilon house to discuss the possibility of taking a page in the Cherry Tree, and other business matters.

## Doctor Bassler Presents Paper

Dr. Ray Bassler, professor of geology and head curator of the National Museum, presented a paper on Paleontology at a meeting of the Geological Society of America in Rochester during the Christmas holidays.

The society has published the first of a series of memoirs, Professor Bassler's 500-page book on a monographic study of microscopic fossils employed in oil geology.

Professor Bassler also has published an extensive bibliographical study of Recent and Fossil Bryozoa.

## Seeger to Lead Chapel On Friday, January 18

Raymond J. Seeger, physics professor, will speak at the Chapel service Friday, noon, January 18, in Corcoran 10. His subject will be "Modern Temptations."

## Alumni Chairman Completing Details For Football Banquet

### Announcement of 1935 Schedule to Be Feature of Program

Quentin Watson, chairman of the alumni committee in charge of arrangements for the annual football banquet to be held at the Lee House January 28 at 8 p. m., is rapidly completing details of the affair.

The banquet, sponsored jointly by the General Alumni Association and the Athletic Department, will be featured by the election of the captain for next season, the presentation of the O. D. K. cup to the player voted the most valuable to the team last season, and awards of varsity and freshman letters. The football schedule for next season will also be announced.

Tickets at \$1.50 each may be procured from Henry W. Herzog at the Publications Office, from Max Farrington in the Gym, and from Mrs. Marcelle Lane in the Alumni Office.

The secretary to the dean of the Medical School will take reservations as will a representative of each of the fraternities.

## Pi Deltas Choose Haley New Head

### Cheatham Made Vice President; Take Places of Detwiler, Herzog

James W. Haley was elected president, and William Cheatham, vice president, of Pi Delta Epsilon, honorary journalistic fraternity, at a meeting held Sunday night in The Hatchet office.

Haley will complete the unexpired term of Samuel B. Detwiler, who was forced to resign because of pressure of his work as managing director of Troubadour. Detwiler was elected to finish the term of Robert Herzog, who was elected vice president last spring, but did not return to school.

Other officers of the group are John Busick, secretary, and Everett Woodward, treasurer. All are in office until April, when elections will be held for the next school year.

## Council Considers Student Activity Academic Credit

The Student Council will meet Thursday at 8 p. m., in Columbian House, Ted Pierson, Council president, announces.

The Council will hear committee reports on new election rules, and plans for having semester hours awarded to students who participate in extracurricular activities.

## Gate and Key Cup Committee Named

The Gate and Key cup for the most outstanding basketball player will be presented at the Interfraternity Prom early in February, Charles Chestnut, president, announced Wednesday.

A committee composed of Floyd Sparks, Fred Rawlings, and Ralph Haupt was appointed to take charge of the presentation, and to solicit the opinion of various outstanding sports writers and basketball players in Washington.

(Continued on Page 4.)

## Dean Doyle Lauds Faculty Aid To Students in Journal Article

"Such a system has been a feature of the Junior College of The George Washington University from its foundation in 1930. Our faculty have been generous with their time and energy, and many students undoubtedly owe the salvation of their educational futures to the sympathetic interest of these advisers."

So writes Dean Henry Doyle in the current issue of "The Journal," the District of Columbia Education Association's magazine, in an article entitled "Some Observations on the Articulation of Colleges

with Secondary Schools."

One of the features of transition from high school to college is the need of individual attention and guidance, Dean Doyle writes, and points out that the junior college is growing in favor because of the recognition of this fact.

"A great deal remains to be done," with regard to the articulation of the college curriculum with the high school course, he writes. "There are some signs, however, that a degree of curriculum articulation is on the way. Two years ago The George Washington University entrance requirements were definitely revised, substituting for a definite list of required subjects merely graduation from an accredited high school with a creditable relative standing in the graduating class. No subjects are specified except for the premedical or engineering students."

Plan Effective  
"This plan has worked very well and we have seen no evidence that

Quentin Watson

## Friday Last Day For Registration Till January 30

### Junior College Students Should See Advisers on Schedules

Friday is the last day of the pre-registration period for the second semester. Those who fail to register by that time must wait until regular registration on January 30 and 31.

Junior College students should arrange for consultations with their advisers, who will be in their offices during this pre-registration period to aid students with their programs. Information concerning advisers' office hours may be obtained from the dean of the Junior College.

Finals Start Saturday  
Final examinations will start Saturday, and will continue through the following Saturday, January 26. Mid-term recess will be from January 26 through January 31.

Classes will be resumed on Friday, February 1, after registration on January 30 and 31 for students entering the University from high schools or transferring from other colleges and universities.

Late Fee Charged  
A late registration fee of \$5 will be charged if initial payment of tuition has not been made on or before January 31.

Upon application to the Registrar's Office, necessary forms for registration and full instructions will be given.

## Wright to Teach Library Science

### N. Y. City Library Chief Classifier Conducts Summer Classes

Willis Eaton Wright, chief classifier of the New York City Public Library, will conduct three classes in library science during the summer sessions.

Appointed general assistant in the New York Library in 1927, Mr. Wright held this position until 1930, when he was named librarian of the American Academy in Rome. In 1933 he was appointed chief classifier.

Mr. Wright will conduct the only three courses in library science offered during the summer. The classes will be cataloging, classifying, and reference.

(Continued on Page 4.)

## Memorial Service Planned to Honor Renowned Doctor

### Smith-Reed-Russell Society To Hold Ceremony For Dr. Smith

A short memorial service will be held for the late Dr. Theobald Smith, preceding a lecture by Prof. E. V. Cowdry at a meeting of the Smith-Reed-Russell Honor Medical Society, Thursday, at 11 a. m., in Hall A of the Medical School building.

Dr. Cowdry, head of the department of anatomy of the Washington University School of Medicine, St. Louis, Mo., will speak on his new discoveries concerning "Intranuclear Inclusions in Virus Diseases." He is regarded as one of the outstanding experimental anatomists and cytologists in the United States. This is the third of the series of lectures sponsored by the Smith-Reed-Russell Society.

McKinley to Speak

Dean McKinley will deliver a short speech on the life and accomplishments of Dr. Theobald Smith, president of the Rockefeller Institute for Medical Research. Dr. Smith is the second to pass on of the three eminent medical scientists who successively held the chair of bacteriology in George Washington Medical School, and in whose honor the Smith-Reed-Russell Society is named.

Dr. Smith's research opened the way to the conquest of typhoid fever, cholera, malaria, and yellow fever, by proving for the first time that insect hosts spread certain diseases to man.

Dean McKinley will entertain in honor of Dr. Cowdry at a luncheon at the Cosmos Club following the society's meeting Thursday.

## Strive to Reduce Bar Exam Cost

### Student Ass'n Makes Survey of Students Wishing to Take Course

An effort to inaugurate last week by the Student Bar Association to reduce the cost of preparatory courses for the District of Columbia bar examination in June, Stanley W. Bobbskill, Student Bar president, has announced.

"A survey is being made through a questionnaire issued to law students in an effort to determine the number who are interested in taking the examination, as well as the type of course they desire," Bobbskill stated.

"If sufficient number are interested in the course, we hope to get a reduction in the price," he continued.

Case Arguments Started  
Case club arguments will be initiated next month, according to the Bar president. Cases will be prepared in briefs and argued before an appellate court consisting of local lawyers and University professors.

A case in personal property involving a question on lost and found articles will be argued by James Edwards and Ruth Geenok for the plaintiffs. James Pimper and J. Miller will act as defense counsel.

Tort Argument Scheduled  
Wilbur Langtry and D. Miller will represent the plaintiffs in a tort argument, while B. Eaton and Bruce Rogerson will present the argument for the defendants. A case involving a problem on the assignment of a contract will be argued by Anne Anderson and Keith Jeffries for the plaintiffs, and by Miriam Schmidt and Herman Handloff for the defendants.

William Given and Earle Hackworth will act as counselors for the plaintiff in a case involving a question on negotiable instruments; while Louise Lampton and Moele Painter will represent the defendants.

## Honor Society Elects Officers

Andrey Yaden was made vice president, and Camille Jacob, treasurer, of Alpha Lambda Delta, freshman honorary scholastic sorority, at a meeting held January 11. Other officers chosen at the same time were Barbara Brossard, courtesy secretary, and Rae Potter, senior adviser.

Margaret Graves, president, and Julia Gemill, recording secretary, both already in office, will continue to serve with the others until regular elections take place in May.

## Winternitz Will Address Medical Group Saturday

Dr. Milton C. Winternitz, dean of the School of Medicine at Yale, will deliver a lecture before the George Washington Medical Society Saturday, January 19, at 8 p. m., in Hall A of the Medical School building.

Dean Winternitz will speak on "Objective in Medical Education," dealing with the question of general practice of medicine as a specialty.

## Fifth Annual Engineer's Ball To Feature Meyer Davis Unit; Commissioner to Lead March

A Meyer Davis unit under the direction of Dave McWilliams, has been selected to play for the fifth annual ball of the Engineers' Council at the Shoreham Hotel Friday, February 8.

District Commissioner Melvin C. Hazen will be invited to lead the grand march, according to Andrew Freeman, social chairman.

The program of the traditional social function of George Washington engineers will include a special concert by the combined Glee Clubs under the direction of Dr. and Mrs. Robert Harmon.

Arrangements for the ball are in charge of committees under the leadership of Terry J. McAdams, president of the Engineers' Council and Andrew F. Freeman.

The committees are headed by J. Harold Link, tickets; William A. Smith, invitations; Edward A. Baker, entertainment; Harold L. Sangster, publicity; and James L. Johnson, Vaudeville Darling, William Ellenberger, and Francis Hoffhelms, alumni.

## 42 Fellowships Given By Bryn Mawr, Brown

### Graduates of Accredited Universities Eligible For Honors

Of interest to seniors graduating in February is the announcement by Bryn Mawr College and Brown University Graduate School that 42 research fellowships are now open for competition.

Graduates of all accredited universities are eligible for fellowships and scholarships offered by Bryn Mawr, and scholarships offered by Brown.

Students who have completed one year of graduate work are eligible for Brown fellowships. Applications must be filed by March 1.

**Resident Fellowships**  
Resident fellowships in 18 subjects are offered by Bryn Mawr, with annual stipends of \$860 each. These fellowships include research in archaeology, chemistry, education, geology, mathematics, physics, and social economy.

The college also offers the Helen Schaeffer Huff Fellowship of \$1,200 in physics or chemistry. In addition to the 19 fellowships, Bryn Mawr opens for competition 28 scholarships. These include the Robert G. Valentine Resident Scholarship of \$400 in social economy and social research; one or two Grace H. Dodge Memorial Resident Scholarships of \$400 in industrial relations; 20 resident graduate scholarships of \$400, and six non-resident scholarships of \$750 in any subject in which fellowships are offered.

**23 Brown Fellowships**  
Brown University Graduate School offers 23 fellowships of \$500 to \$650 each in biology, chemistry, economics, English, history, mathematics, philosophy, physics, psychology, and romance languages. Women graduates of any college or university are eligible for a fellowship of \$1,200.

Assistantships with stipends from \$500 to \$750 plus tuition are offered in the fields of biology, chemistry, economics, engineering, history, mathematics, philosophy, physics, psychology, and romance languages. Assistantships with tuition only will be offered in 15 other fields.

## Medical Society Hears Speeches

Five minute talks by former presidents of the George Washington Medical Society were the features of the unusual program presented Saturday evening at the December meeting of the Society, held at the Medical School. In these brief talks the doctors presented unusual cases of their experience.

Former presidents on the program were Drs. A. B. Bennett, J. A. Reed, F. A. Reuter, W. T. Davis, D. L. Borden, C. N. Chipman, Huron Lawson, Boyce Bolton, W. T. Gill, Jr., F. W. Titus, Paul Putzki, C. L. Hall, F. A. Hornaday, W. J. Mallory, O. B. Hunter, C. B. Conklin, C. S. White, and D. W. Prentiss.

Dr. W. Warren Sager, president of the Society, presided.

## Two Fraternities Plan Affairs During Exams

Kappa Alpha and Sigma Chi have both scheduled social functions during exam weeks.

The Washington Alumni Chapter of Kappa Alpha is holding a smoker Saturday night at the active chapter house for both alumni and active chapters. The occasion is the fraternity's Founders Day.

Sigma Chi fraternity will hold its annual winter formal, consisting of a dinner and dance, at the National Women's Country Club, on Friday, January 25.

**Yeagers Give Tea**  
Dr. and Mrs. Willard H. Yeager were hosts to all public speaking students and debating teams in the University at a tea Sunday. Prof. Henry G. Roberts and Prof. Harold F. Harding assisted.

## Three Nuptials, Two Betrothals Feature Recess

### District Physical Education Association Will Sponsor Conference

By Kathleen Bulow  
With the closing of schools for the holiday vacations, Dan Cupid did not shirk his duties and announcement has been made of many engagements and marriages since the Christmas season.

The engagement of Frances Douglass to William Kirby has been announced by Kappa Kappa Gamma. Mr. Kirby is a graduate of the University of Michigan, where he was a member of Phi Kappa Tau and Phi Beta Kappa fraternities. Tentative plans are that the wedding will take place in Washington early in June after Francis' graduation from the University.

Announcement was made last week of the engagement of Mary Hudson, secretary to Dean McKinney, of the Medical School, to Ralph Rowzee, a Phi Sigma Kappa of Massachusetts Institute of Technology. Mary graduated from Columbian College in 1931. She is a member of Hour Glass, Gamma Eta Zeta, and Pi Beta Phi. After the wedding the couple plan to move to Akron, Ohio.

Alpha Delta Pi announces the engagement of Burgess Roberts to Francis LeSourd, Sigma Phi Sigma of the University of Washington. Following the wedding, which will take place the latter part of January, the couple will go to California for a month's visit. The engagement of Kathleen Watkins to George Linkins has also been announced by Alpha Delta Pi.

Helene Delvell, of Salt Lake City, and Orman Ewing were married last week at Alexandria, Va. Mr. Ewing is a second-year student in the George Washington Law School. He is a member of Sigma Nu and Delta Beta Phi fraternities. Louise Hansen and Mr. Wade Marshall were married at Poughkeepsie, N. Y., New Year's eve. Mr. Marshall received his doctor's degree in physiology from University of Chicago in 1934 and is now an instructor at George Washington.

Another holiday wedding was that of Helen Nichols to James Hobbs. She is a member of Alpha Delta Pi sorority and he of Theta Upsilon Omega.

**Young Things Annual** an amazing combination.

Timid little Mary Maxon asked Ho-Man Karl Gay to protect all the dear little Kappas when they held their rummage sale down in that awful Seventh street neighborhood.

Vagaries of the telephone company: Hatchet Reporter David Apter, seeking to call a downtown newspaper library, received instead an apartment house exchange. Columnist Verna Vols dialed NA 9538, thinking it was Curly Caminita's number, and received the Department of Justice.

**ROSS POPE'S** fraternity pin didn't stay in his possession long enough to grow warm. He had no sooner recovered the pin from a gal named Cleo than he passed it on to Jane Norford, who is so-o-o afraid that someone will misinterpret its meaning.

Yes sir, Mac Gardner took advantage of Eleanor Boehs and placed the ring on the third finger of her left hand while she was convalescing from her appendectomy. Harold Stepler writes from Lexington, Ky., to say that he has been enjoying our efforts and that he had a "Mary" Christmas (and that's no typographical error).

The Acacia house is rent asunder—over the question of whether or not to install windows in the now-frigid dormitory. The opponents; the Hairy-Chests (those who can take it) and the Lily-Livers (those who can't), do daily battle.

"Pat" Patterson startled her friends by returning after the vacation with her hair tinted a lovely strawberry hue.

## Ball Chairman

ANDREW FREEMAN, social chairman of the Engineers' Ball, to be given at the Shoreham, February 8.

## Personals

### Broken Heart?

Harriet vs. Hinda Wassau

### Wandering Jewelry

By Fred Stevenson

THIS rumored and can be seen by those who will look that a former Hatchet editor who suffered a recent heartbreak has been seen frequently at the places one is seen in the company of Margaret Mayo, Ruth Brewer, and many another, and looking mighty happy for one with a broken heart.

The height of something or another: the Pi Phi pledge who dropped in at a fraternity house, took a bath, and dried her clothes rather than let her mother know that she had been caught in the rain.

Echoes of the late "goat gallop": Pledge from you: Baxter Davis, who hung on the arm of Olivia Nixon for the alleged grand march, got lost in the intricacies of the promenade and ended up escorting himself. Mac Snodgrass committed mayhem on a certain individual who uttered foul words in the presence of his date, Leona Moser. Louise Kramer did duty in the hospital instead of leading the march with Maurice Draper.

Fay Walker rises up in meeting to state that she has not received Al Hecker's pin and that she was never so humiliated in all her life.

**CAN** you picture Harriet Hattinett in the role of Carrie Hattinett? Neither can we. But after witnessing her first burlesque show, Harriet is now soliciting aid for her drive to end all burlesques. Will you help?

A certain S. A. E. pledge, on being asked in goat court to name the eight founders of the fraternity, got Abner Patton's name confused with Abner Drury and mentioned the latter. He was then asked of what chapter Hiram Walker and John Seagram were alumni.

Rapid-rise-to-success story: Ted Little pledged S. A. E. in September, 1933, and became president December, 1934. Congratulations! Imagine the surprise of the A. D. P.'s and the Pi Phi's when they discovered that they had sent identical Christmas cards to various campus organizations.

Weekly brief descriptions: Gussie Mae Hanley—a white rabbit with pink eyes and twinkling nose, who likes her lettuce. Ruth Allen—a leading candidate for the newly-acquired Glamour title; a big businesswoman by day and a charming sophisticate at night. Therese Arceneaux—Our personal nomination for leading exponent of Sex combined with that Sweet-

"Beauty" sleeps for fifteen minutes. The girls' individual gym class in bathing suits is stretched out on mats in the darkness of the basement gym to rest for a quarter of an hour.

Presently comes the awakening. Then activity. An observer may be led to wonder at two girls sitting on stools before mirrors and casually swinging one arm each. Or said observer may become engrossed in one girl's endeavoring with a drunkard's determination to kneebend walk in a straight line with a book balanced on the part in her hair while a more frolicsome female stands in front of her doing an interpretation of a jumping jack in a jarring manner which gives jitters to aforesaid book.

The aforesaid book may be six inches long and one-half inch thick or much fatter and longer, according to what is at hand. Dictionaries haven't yet been used, but "watch out, it's crushing you," says someone to someone else who walks beneath a telephone book.

**Women Individualists Hold Class In Basement Gymnasium**

By Margaret Davis  
"Beauty" sleeps for fifteen minutes. The girls' individual gym class in bathing suits is stretched out on mats in the darkness of the basement gym to rest for a quarter of an hour.

Presently comes the awakening. Then activity. An observer may be led to wonder at two girls sitting on stools before mirrors and casually swinging one arm each. Or said observer may become engrossed in one girl's endeavoring with a drunkard's determination to kneebend walk in a straight line with a book balanced on the part in her hair while a more frolicsome female stands in front of her doing an interpretation of a jumping jack in a jarring manner which gives jitters to aforesaid book.

## Frash Make Annual Showing In Borrowed Tuxes At Prom

### Draper, Schneider Pro- nounce Annual Pledge Affair "Huge Success"

The big night of the year for fraternity pledges has "come and went." The Interfraternity Pledge Prom, at which freshmen wear borrowed tuxes which drag at their heels or squeeze at their stomachs, has been declared a "huge success."

Maurice Draper, president of the Pledge Council, says "It was a success," and so does Robert Schneider, chairman of the Prom Committee.

The occasion was the annual night when the first year men cut a fancy figure on that very dependable ice of social success. This year—that is, Saturday—it was at the Kennedy-Warren and all the King's horses and King's men were there—200 or 300 of them.

There was a grand march and they trailed up the floor and they trailed back again. There was a blonde who sang. There was a blonde at 10 cents a glass. In fact, it was a swell success, as we said before.

The very nice campus ladies in black and white, sandals and veils, broadcases and velvets—oh well, any way, it was a swell prom.

But to get down to business and tell you the news—Barbara Baker and Anne Pace were the girls who led the march. That is all—except the prom is over and it was a swell prom.

## Dinner Given By Graduate Group

Members and guests of the Beta Chapter of Phi Delta Gamma, graduate fraternity of George Washington University, were entertained at a progressive dinner last week.

Hostesses for the evening were Gertrude Speiden, Mrs. Elise Kissling, Elaine Arnaud, Alice A. Jewell, Mary Pearce, Mary Leonschneider, Christine Fassett, Elsie Green, Mildred Green, Margaret Kline, Phoebe Knappen, Hazel Borden, and Katherine Alexander.

Elsie Green, assisted by Mary Burrus and Bernadine Haycock, entertained the chapter at the regular January tea and meeting on Sunday.

## Loveless Quits Managerial Job

Mildred Loveless resigned as manager of volleyball last week, due to ill health. Miss Margaret Lee, coach of the sport, in conjunction with the W. A. A. board, will appoint another manager to take her place if the sport continues.

In order to continue volleyball as a major sport more juniors and seniors are needed for practice. A freshman-sophomore team has been organized, but until sufficient candidates appear the junior-senior team can not be determined.

Applications for freshman, junior, and senior managers of volleyball will be received this week in Miss Lee's office in Building T.

## Former Student Fencing Coach

The Fencing Club will be instructed by Mads Montgomery, former student in the University, Thursday and Friday of this week. Miss Montgomery is in charge in the absence of Major Blount and his son. The instruction will continue from 7 until 9 p. m.

Following the holidays, Major Blount and his son will resume their instructions.

Miss Atwell, head of the physical education department, announces that orders for fencing equipment should be left with Barbara Feiker, president of the club, or in the physical education office.

## Former Students Honored

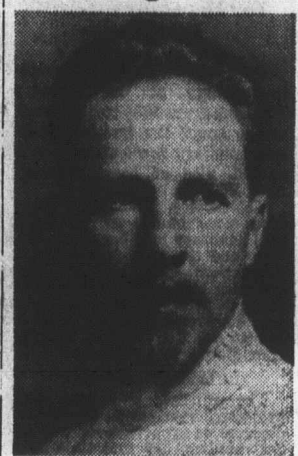

Four men from the G. W. chapter of Tau Alpha Omega were elected grand officers of the fraternity for the coming year at the recent convention in New York City. They are Louis Dembits, grand president; Samuel Sintman, vice president; Irving Selfont, treasurer; and Al Lyman, secretary.

**Legal Sorority Entertain**  
Phi Delta Delta, women's national legal sorority, held a dinner in honor of their international president, Miss Florence Selander, Friday evening, at the Admiral.

## Women's Calendar

Today, January 15  
Junior Panhellenic Council, at noon, Corcoran 12.  
Orchestra Meeting, Presbyterian Church, 7:30 p. m.  
Tomorrow, January 16  
Intramural Board Meeting, Building T, at noon.  
Beginning and Intermediate Swimming, at Y. W. C. A., 8 to 7 p. m.  
Thursday, January 17  
Advanced Swimming Class at Y. W. C. A., 4:30 to 5 p. m.  
Fencing Club, in recreation hall of Presbyterian Church on H street, 7 to 9 p. m.  
Saturday, January 18  
Bible Study, in room, 11 a. m. to 3 p. m.

## Fencing Coach

MAJOR BLOUNT, instructor of the women's fencing club which meets every Thursday night.

## Bemis, Former Professor, Honored by Faculty Club

Dr. and Mrs. Samuel Bemis, of New Haven, Conn., were guests of honor at the Faculty Women's Club at the home of Dr. and Mrs. Walter Lynn Cheney, last week.

Dr. Bemis, former professor of history at George Washington and professor of history at Yale University at present, spoke on "Changing Conceptions of College Education."

## Chi O Defeated By Sigma Kappa In Intramurals

### Ping Pong Match Yesterday Won With Scores Of 6-4, 2-6, and 8-6

Sigma Kappa won the intramural ping pong tournament yesterday afternoon when it defeated Chi Omega 6-4, 2-6, and 8-6, after Chi Omega had defeated Alpha Epsilon Phi.

Last Monday, Chi Omega beat Zeta Tau Alpha and Alpha Epsilon Phi defeated Phi Sigma Sigma. Sigma Kappa defeated Kappa Kappa Gamma and Alpha Delta Pi won over Alpha Delta Theta in the games on Wednesday's schedule.

In the semi-finals Friday afternoon, Sigma Kappa was the winner in a game with Alpha Delta Pi. The ping pong tournament will be followed by the bowling tournament in February and March. At the end of the year the sorority with the highest number of points in intramural tournaments during the year will be presented with the silver Intramural Cup awarded annually.

## G. W. Fraternity Chapter Wins Scholastic Award

Ellis U. Brent, Leon Gerston, Malcolm Mintz, and Jay L. Samuel were initiated by Phi Epsilon Pi fraternity last month.

At the national convention of the fraternity held recently in Chicago, Alpha Mu, the George Washington chapter of Phi Epsilon Pi, was awarded one of the fraternity scholarship plaques for having the highest scholastic standing on the George Washington campus.

## Local Coaches Convene at 'Y'

Several members of the faculty and many students in the women's physical education department will participate in the conference on physical education, sponsored by the physical education association for the District of Columbia, which will be held at the Y. M. C. A. on Saturday from 10 a. m. to 5 p. m.

Ruth H. Atwell, executive head of the department, president of the joint association, will preside at the luncheon at 12:15 in the Y. M. C. A. gymnasium.

Mrs. Ruth Foster, instructor in dancing at G. W., will be discussion leader of the women's dance section, while Miss Margaret Lee, instructor in swimming, will speak on "Swimming Clubs" during the meeting of the women's athletic section.

A modern dance demonstration will be given by the major students of the physical education department in the gymnasium at 4:45.

Activities furnished by other District schools will include various demonstrations on tumbling, folk dancing, rhythms, handball, and squash.

## Dancing Classes In New Church Prove Novel Idea For Women

### By Kitty Campbell

Dancing in a church! Why who ever heard of such a thing??? Well, times have changed, and that's what goes on here under our very noses. In the new Western Presbyterian Church, on H street, between Nineteenth and Twentieth streets, practically right on the campus, Mrs. Ruth Foster holds her major dancing classes.

Marking a new height in religious fervor among University students, some 50 charming coeds each week flock to church in a body, not only once a week, but it is an almost daily affair.

After arriving, however, they do not devote themselves to calm philosophical contemplations. On the contrary, they fling themselves into gay dancing, and frenzied, waving of swords, for in addition to the Orchestrated dancing class, the Fencing Club, with its fair participants, gathers here several times a week.

for instruction in the manly art of the Middle Ages.

Many of us remember "the church," which was used several years for this same purpose. Instead of dancing in beautifully polished hardwood floors, you were annoyed persistently by the many splinters which proved anything but pleasant, and might be said to have been the origin of many weird interpretations in the dancing classes.

Although the new recreation hall is greatly appreciated, the falling light bulbs from the swaying chandeliers in the old church certainly were one great attraction.

The modern stage with its beautiful velvet curtain and other essential properties of an amateur stage, is quite a contrast to the barren pulpit and the keyless organ, found in the abandoned church.

**Stymied by a Stupid?**  
... light an Old Gold

When he starts to read you the story of his life, "From Bootblack to Butterfly," don't weep, don't scream. Just relax with a sunny-smooth Old Gold. You'll find its mild and mellow tobaccos as soothing as a lullaby.

**AT TRYING TIMES . . . TRY A SMOOTH OLD GOLD**

## University Opens Redecorated Club To Teaching Staff

**Pres. Marvin Approves Use of House in Letter to Van Evert**

The Faculty Club, located at 2013 G street, was opened by the University to all members of the faculty, having been completely furnished and redecorated. A formal housewarming will be held soon.

In a letter to Prof. Benjamin D. Van Evert, President Marvin, en route to California, stated, "In accordance with our plan, we want all the members of the faculty to use it."

**Committee Supervises Furnishing**  
The furnishing of the clubhouse was done under the supervision of the house committee of the Faculty Club, composed of Willard H. Yeager, Dewey professor of public speaking, Charles E. Merry, assistant to the comptroller, Frances Kirkpatrick, associate professor of home economics, John Raymond Lapham, dean of the School of Engineering, Norris L. Crandall, director of the Division of Fine Arts, Errett C. Albritton, professor of physiology, and Hector C. Spaulding, professor of law.

**Basement Well Furnished**  
In the basement of the building, formerly the "Kirk House," is a recreation room, a spacious dining room, and a kitchen for the preparation of meals served to the faculty. On the walls of the dining room are two drinking scenes, presented to the club by President Marvin.

A living room, and a second smaller dining room are on the first floor and on the second floor are comfortably furnished rooms for reading and writing, one of which contains a radio. On the table in the reading room are the latest editions of Harpers, Scribners, Reading Digest, Time, and others. A post office is also a feature of the second floor. All members of the faculty except those in Law School receive their mail there.

**Third Floor Fitted**  
The third floor houses a committee room, and a room fitted with cots for resting.

Throughout the clubhouse are spacious closets and many desks well supplied with Faculty Club stationery. Every need of hard working professors has been anticipated and provided for—with such success that professors actually hunt for excuses to leave their work and make their way over to the Faculty Club to indulge in a game of pool or a friendly chat.

Officers of the Faculty are: B. D. Van Evert, president; Charles S. Collier, vice president; Florence M. Mears, secretary, and Charles W. Holmes, treasurer.

## Professor Ennis Attends Engineering Meeting

Prof. Alfred Ennis, Engineering School, represented the University branch of the American Institute of Electrical Engineers at a meeting of the Student Councilors and Chairmen in Pittsburgh, last Tuesday.

Twenty colleges from Ohio, Pennsylvania, Delaware, Maryland, and the District of Columbia sent delegates.

## Annual Post-Graduate Spring Clinic Planned

Plans are going forward for the third Annual Post-Graduate Assembly Spring Clinic to be held at the Medical School and Garfield Hospital on February 23.

Dr. Everts A. Graham, professor of surgery at Washington University in St. Louis, will be the speaker at the banquet to be held at the Mayflower Hotel in the evening following the work at the Medical School.

## Next Issue of Hatchet Will Appear January 29

Due to the winter recess there will be no edition of The Hatchet next Tuesday. The regular schedule will be resumed the Tuesday following, January 29.

You will be satisfied with our food and prices. Try us breakfast ready for you at 7 A. M. Luncheon 11:00 A. M. to 2, and a very attractive Dinner 4:30 to 7:45. We also serve breakfast and luncheon at our Cafeteria, 1521 K Street N. W.

## Who's Who

To most people, holding the A. U. breast stroke records in the District of Columbia for the 100, 200, and 220-yard dashes would seem like quite an accomplishment, but to Dyer Gormley—"Oh, that's nothing," to quote the words of the modest captain of the swimming team.

When Dyer was approached and told that he was to be interviewed for "Who's Who," he said, "Why?" He was a sportsman, and he was informed that whether he knew it or not, he was captain of the swimming team, which was slightly more of an honor than being an adept tiddy-wink player or an accomplished musician on the kazoo. It is doubtful that he is convinced of this yet.

When questioned as to whether he held any records in addition to those previously mentioned, he stated that he could not think of any. Inasmuch as this writer has information to the effect that he holds the breast stroke records for the city swimming pools in Baltimore, Md., and Newark, Del., he was questioned relative to the veracity of said information. "Come to think of it, that's true. I have forgotten all about it," he replied.

Numerous efforts to get him to admit that he was largely responsible for the success of the G. W. team in grabbing top honors in many of the swimming meets during the past two years proved utterly futile.

As a means of keeping in condition during the summer months, Dyer utilizes his abilities by serving as a life-guard, having been captain of the life-guards at a local swimming pool for the last two summers.

Dyer is a senior student in the School of Civil Engineering, and will graduate in June. He began his preparatory work at the Friends' School in this city, where he attended for two years, followed by matriculation at the Severn in Maryland. Prior to entering George Washington, he attended the University of California at Los Angeles for one year. While a student in high school he was active in football, baseball, track, and basketball; but because of a knee injury he has been unable to take part in these activities here. He is a member of Gate and Key and Kappa Alpha fraternities.

**Ennes Outlines**  
The third floor houses a committee room, and a room fitted with cots for resting.

Throughout the clubhouse are spacious closets and many desks well supplied with Faculty Club stationery. Every need of hard working professors has been anticipated and provided for—with such success that professors actually hunt for excuses to leave their work and make their way over to the Faculty Club to indulge in a game of pool or a friendly chat.

Officers of the Faculty are: B. D. Van Evert, president; Charles S. Collier, vice president; Florence M. Mears, secretary, and Charles W. Holmes, treasurer.

## Press Program

(Continued from Page 1)  
ren R. West, and Dr. Raymond J. Seeger. On March 6 four other articles written by members of the faculty will be sent.

**Style Sheet Tested**  
Newspaper members of the Association will have their work of the first semester reviewed and criticized constructively during February. The rough draft style sheet presented at the last convention is now being tested in actual use by publications. This will be revised and issued April 3.

Art students of all high schools will compete in the contest designed to produce the official seal of the Association, which will be printed in the "matheads" of member publications.

**News Contest Held**  
A current news information contest given in conjunction with the McKinley chapter of Quill and Scroll, international honorary society for high school journalists, will be held April 3, followed May 1 by a news, feature, sports, and editorial writing contest.

The administrative staff has been completed with the appointment of William Corley, promotion manager; David Apter, business manager; and Ethel Nelson, executive secretary.

Approval of the five-point plan has been indicated by the Publications Board and the editorial board of The Hatchet.

## Doyle Praises Adviser System

(Continued from Page 1)  
it has brought us a less intelligent or less desirable type of student or that standards of work as shown by subsequent achievement, have suffered.

"Rah, rah" students are disappearing from American college campuses, Dean Doyle believes. "I think I can see a great improvement over the undergraduate days of my own college generation," he says. "Hazing or baiting of freshmen, is now considered 'small-town' or 'high school stuff.'"

## Pre-Registration Blank Is Printed on Page 6

Students who wish to take advantage of the pre-registration period, lasting until Friday, should fill out the blank which will be found on page 6 of this issue of The Hatchet.

The blank should then be mailed or taken to the Registrar, from whom necessary forms and instructions for registering may be obtained.

**No Band Rehearsal This Week**  
There will be no band rehearsal next Monday evening, according to William Corley, student director.

## Former Faculty Member Expires Of Heart Attack

**Dr. Smith Became Famous for His Many Scientific Discoveries**

Dr. Theobald Smith, professor of bacteriology at the School of Medicine from 1886 to 1896, and in whose honor the Smith-Reed-Russell honorary medical society was named, died of heart disease in New York last week.

He received honorary degrees from more than 11 universities and was honorary member of 13 American and 12 foreign medical organizations. His brilliant career brought him world fame in the medical field. Among his important discoveries was the proof that insects are the essential agents in spreading certain diseases.

**Made Discoveries**  
The principle now used in the protective vaccination against such diseases as typhoid fever was demonstrated for the first time by Dr. Smith, as was the first example of experimental disease due to vitamin deficiency. His discoveries were very important and useful in controlling diphtheria, tuberculosis, and other diseases.

Following his professorship here, Dr. Smith was connected with the Bureau of Animal Industry. He later went to Harvard as professor of zoology and of comparative pathology. During his career he was also director of the Carnegie Institute and scientific director and later president of the Rockefeller Institute.

**Honored By Club**  
The Smith-Reed-Russell Society was named after Dr. Smith; Walter Reed, whose heroic work in Panama led to the extermination of yellow fever; and General Frederick F. Russell, who applied the knowledge of the use of vaccines discovered by Dr. Smith in establishing the value of typhoid vaccination. All three of these men were formerly on the faculty of the School of Medicine.

The society is composed of students having a general average of 86 or better in their work in the School of Medicine. The next meeting of the society, will be held sometime in the early part of January.

**Meeting Set Tomorrow For Hour Glass Society**  
There will be a meeting of Hour Glass Honor Society tomorrow night at 7 o'clock in the Kappa Kappa Gamma rooms, for the election of new members.

## Alpha Pi Epsilon's New Club Room In Building C Attractively Decorated; Tea Marks Room's Official Opening

By Margaret Davis  
Because of \$73.70 the Alpha Pi Epsilon, honorary home economics fraternity, girls may sit on built in window seats and put books in built in bookshelves, they may sit in two Windsor chairs beside a gate leg table, they may look at drapes hanging on curtain rods, they may recline on an overstuffed chair which boasts a footstool, they may put posies in vases, they may read by a floor or table lamp, and they may sit on cushions.

With careful planning and a great deal of work this group has economically and attractively completed the decoration of a club room on the third floor of Building C.

The project has been under way since the beginning of the semester. Although some of the labor has been hired, most of it was done by the girls themselves. Besides the decorating, the room has also been papered. The woodwork has been painted and the floor varnished.

Shortly before the holidays, a tea for home economics majors marked the official opening of the room.

## Dr. Jorg Gamow To Teach Physics

(Continued from Page 1)  
a group of physicists who met at Ann Arbor, Mich., during summer school. He returned to this country and came to Washington in November, after attending the International Congress of Physicists in London.

In 1931 Dr. Gamow published a book entitled "Constitution of Atomic Nuclei and Radio-Activity," and he is now writing "Constitution of Atomic Nuclei and Nuclear Reactions."

## Registrar Announces Examination Changes

Six changes were made in the examination schedule as published in the last issue of The Hatchet. The complete corrected schedule will be found on page two of this edition.

## Hatchet Receives Unusual Chinese University Paper

By Dick Creyke  
Many and many a paper has found its way into The Hatchet office by reason of the policy of exchanging issues regularly with other universities and colleges throughout the United States. Recently there arrived a periodical of far more than ordinary interest. It is the Lingnan Monthly, official student publication of Lingnan University, located in Canton, China. Lingnan is called an "Americanized university," because its faculty is made up of American professors and Chinese professors who have studied abroad.

The magazine is written in English, but the names of the members of the editorial staff are given in both English and Chinese. The advertisements, too, present a hybrid appearance, being made up of a mixture of English letters and Chinese characters.

The table of contents reads much the same as that of an American college monthly. The issue contains editorials, feature articles, campus news, organizations, "The Co-Ed's Corner," sports, faculty, alumni, "What Others Say," it's own "Personals" column, "Campus Tibbits," "K a m p u s Kracks," and (strange coincidence) a feature entitled, "Did You Know That?"

Articles include "The Darker Aspects of the New Deal," "A Challenge to Youth," "Is War the Way Out?" and "A Young Man's Fancy."

Subscription to the Lingnan Monthly is \$1.50 gold (!) or, for the Chinese, \$2. H. K. (which probably doesn't stand for Hong Kong at that).

## Registrar Announces Examination Changes

Six changes were made in the examination schedule as published in the last issue of The Hatchet. The complete corrected schedule will be found on page two of this edition.

## 2nd Term Law Courses Listed

**Van Vleck Gives Subjects Which May Be Started in February**

Law courses which may be begun by students who register for the second semester have been announced by Dean William Van Vleck.

Contracts Special, Law 114, and Criminal Law Special, Law 126, will be open to students who first enter school during the second semester. Law 114 is given on Monday and Tuesday at 5:10 and 6:10 p. m., while Law 126 is offered on Wednesday and Friday at 5:10 and 6:10 p. m. Full credit, four semester hours, will be given for each course.

Insurance, Law 328, and Federal Jurisdiction, Law 220, will be offered to students who have been in attendance during the first semester of the courses. Law 328 is held at 5:10 and 6:10 p. m. on Tuesday, while Law 220 is scheduled for Thursday at 5:10 and 6:10 p. m.

Admiralty, Law 402, Jurisprudence, Law 420, and Government Corporations, Law 404, also will be open to students who have taken the first semester's work. Law 402, Law 420, and Law 404, will be offered on Monday, Wednesday, and Friday, respectively, at 5:10 and 6:10 p. m.

Everyone must register for the second semester, including those who are carrying only year subjects. Those in attendance during the first semester who desire to register early for the second semester may have their registration approved not later than Friday in the office of the Dean.

## Geological Group Initiates Five Men

Sigma Gamma Epsilon, national geological fraternity, initiated five men Saturday night, January 5, at the Hay-Adams House. Following the ceremony the new initiates, Robert James Martin, John E. Willard, Lee R. Schermerhorn, Oscar T. Neal, and Thomas F. Stratton, were honored with a banquet.

I. H. Smith, head of the Division of Mines of the National Geological Survey, who has recently returned from Alaska, spoke of the geological aspects. The grand national vice president of the fraternity, E. P. Henderson, curator of minerals of the National Museum, told of the installation of a chapter at Miami University at Oxford, Ohio.

Dr. Ray Smith Bassler, professor of geology at George Washington University, and head curator of the National Museum; H. H. Hughes, of the Bureau of Mines; John C. Reed, and C. W. Wesley, of the Geological Survey, spoke briefly.

## Wm. Hoppman Will Speak At Geometry Club Tonight

William Hoppmann, member of the Mathematics Club, will give a talk on dimensional geometry at the meeting of the club in Building Y, Room 27, this evening at 8 o'clock.

## Prescriptions filled ACCURATELY since 1891

**CAMEL'S COSTLIER TOBACCO'S NEVER GET ON YOUR NERVES!**

By JOHN BUSICK

THE all-important gentleman from Missouri arrives back in town today from the Pacific Coast and it's certain there'll be no rest in the athletic department until he makes several decisions.

With Len Walsh already in Chicago and Roland Logan slated to leave before March 1, Pixlee can't ignore the fact that his coaching staff is rapidly dwindling to almost nothing. The Hanley rumors, seemingly impossible a month ago, are cropping up again. It's possible, even probable that Walsh might return for a single season but the chance that he would find it convenient to leave his desk for three months every fall is almost out of the question.

Len's successor will have to be found and though he might do a better job here next season than anyone else in the country, if the post has to be filled, it might be better in the long run to fill it now and get a man settled in the job.

Logan wants to return, but the major league season isn't over until the last week in September and should the Red Sox win the pennant and go into the World Series, an even chance now, Roland wouldn't be free until October 12, at least. By then the dirty work of training camp and the first two games, which include the Alabama fray, will be over.

FROM the middle of October until March 1 Logan could continue his excellent work as trainer and assistant varsity and frosh basketball coach. This would give him the increasingly disliked mark of a "part time" coach. Big schools are trying to get away from this situation.

Then, too, Pixlee has his physical education department to consider. Both Walsh and Logan taught classes and they must be replaced. Only Biyy Myers remains to handle this work. The job is unquestionably too big for one man.

Until some statement is forthcoming from "Possum" Jim's headquarters, every rumor and every possibility will be subjected to the utmost scrutiny.

## Collegiate Writers Pick All-American

"Scotty" Kunkel, Nodak Sports Editor, Conducts Nation-wide Poll

By Harley Climpson. Although football togs have been tucked away in moth balls until next fall, the "hot stove" experts are still picking national championship and mythical All-American teams.

Recently, "Scotty" Kunkel, sports editor of the Dakota Student, publication of the University of North Dakota, sent out 150 ballots to the campus sports editors of various student newspapers in the country. The result of the poll has just been announced by Scotty, and on the first team, the composite selection of 150 campus sports writers, there have been placed the following men:

Meserip, Stanford—E  
Lee, Alabama—T  
Bevan, Minnesota—G  
Kalbaugh, Princeton—C  
Hartwig, Pittsburgh—G  
Cutter, Navy—T  
Larsen, Minnesota—E  
Lund, Minnesota—B  
Berries, Navy—B  
Grayson, Stanford—B  
Purvis, Purdue—B.

This writer, pinch-hitting for Johnny Busick, sports editor of The Hatchet, submitted the following selections to the poll:

Meserip, Stanford—E  
Barclay, North Carolina—T  
Bevan, Minnesota—G  
Robinson, Notre Dame—C  
Monahan, Ohio State—G  
Cutter, Navy—T  
Larsen, Minnesota—E  
Howell, Alabama—B  
Grayson, Stanford—B  
Weinstock, Pittsburgh—B  
Kostka, Minnesota—B.

H. Smith Barrier, voting for the North Carolina Daily Tarheel, selected eight of the eleven first-team men on his team as did Leland F. Leatherman of the Arkansas Traveler. This writer had five men on the first team while the other six selections made the second team selected by the poll.

## Court Records

	G.	FG	F	Tot.
Goldfaden	9	30	49	79
Howell	9	32	43	77
Kiesel	8	17	27	77
Noonan	8	13	10	36

## Colonials Meet Emory-Henry Quint Tonight

Return Game With Geneva Postponed Until February 25 or 26

Emory-Henry Expected to Offer Stiff Competition Tonight

By Sid Carroll

George Washington's erratic basketball team will face another test tonight against a strong Emory-Henry quint from Virginia. According to advance information, Emory-Henry will be a tough pill to swallow as they have gone undefeated in seven games this season.

The Geneva tilt, scheduled for Friday, has been postponed because of the impending examinations, and will be played February 25 or 26 at Geneva, as previously announced.

Emory-Henry, one of the better small schools of Virginia, boasts a fine record. It has only lost two basketball games in the past two years. Last year its only defeat came at the hands of Tennessee and that by a margin of one point. Tennessee won 32-31 in a hotly contested affair.

Roberts to Be Watched

Captain Glenn Roberts, 6-foot 3 center, is one of the highest scoring players in Virginia. Roberts has scored a shade less than 20 points in his three years on the court.

Roberts is supported by four other six-footers in Kenny Fulk and Jake Robinson, forwards, and Tack Countias and Walter Fielder, guards. Countias and Fielder were named on the All-Virginia Conference team, while Robinson was selected on the All-State second team.

Coached by W. S. Jackson, who seems to have the knack of putting out good clubs both on the gridiron and on the court, the Wasps won the Conference title last year and are sailing along in great style thus far in their schedule.

The Colonial team will probably start the same lineup which played so well against C. C. N. Y. and so badly against Elon. Included in this team are forwards Jimmy Howell and Bill Noonan; center Hal Kiesel; and guards Berg and Leemans. However, Ben Goldfaden and Henry Ruley, forwards, and Walter Bakum and Milton Schonfeld, guards, may see action.

## Tech Beats Cubs In Extra Period; Daly's Foul Wins

After Lee Fenlon, substitute guard for Dickey, entered the game and tied the count with two sensational field goals, the Tech High championship aspirant quipped out a game George Washington Frush outfit 32-31, in an extra period yesterday at Tech.

In the extra session, George Hahn, Tech guard, came through for the Boydmen with a field goal, and Reds Daly, star player for four years, sunk a foul throw to give the high school lads the margin of victory. Liddycoat, George Washington center, scored a goal in the extra period, also.

John Billings led the scoring for the Techies with seven floor shots for fourteen points. Tommy O'Brien was high for the Freshmen with 10 points, followed closely by Liddycoat with nine markers. The high scoring Reds Daly was held to only five points by the close-guarding Buff and Blue.

Football All Year

North Carolina State College is attempting to make football an all-season sport. Winter football practice is being called by Coach "Hunk" Anderson this week. The 86 candidates called will drill the next six weeks and possibly two more.

## Various Changes in Basketball Rules Being Tried in Intercollegiate Games

The increasing number of intersectional basketball tilts this year has aroused much interest. Disputes have arisen frequently over the wide differences in rules under which each team is accustomed to play. In an attempt to remedy this situation and to inject more speed into an already fast game many changes in rules and play have been proposed. Several schools have been experimenting with these proposed changes in an effort to determine their advisability.

In the West, Stanford and other coast teams have de-emphasized the center-jump. After a field goal the ball goes out of bounds to the team scored upon. The jump is used to start each period and an overtime. It is also used after a technical and a double foul, and after the last free throw following a double foul. It is contended the change will not only give the little fellow a show, but also cut down the number of fouls and increase the speed and amount of actual play.

In the Midwest, Kansas has been experimenting with the baskets raised to a height of 12 feet. This is supposed to further reduce the advantage of height.

In the East, Cornell has been playing with the baskets 6 feet within bounds instead of the usual

These Men Played a Big Part in Colonials' Return to Form

Red Ruley

Hal Kiesel

## Dual Role Played By Buff Against C.C.N.Y. and Elon

Kiesel, Berg Outstanding Players in Last Two Contests

Playing a Doctor Jekyll and Mr. Hyde role, the Colonial quintet's revamped line-up first astounded and then disgusted the local followers against C. C. N. Y. and Elon College.

The Fixleemans acted the part of Mr. Hyde against the New Yorkers. Entering the game as the underdogs, the Buff emerged the winner by a decisive margin, 43-32. G. W. Noses Out Elon.

However, against Elon, the hoopers did an about face and barely won after a last minute flurry of pot shots by Elon was cut short by the whistle, 36-33. Bad passing and worse shooting were responsible for the near demise of the local team.

Phenomenal guarding and machine-like foul shooting won the C. C. N. Y. tilt for the G. W. outfit, Wednesday, at Tech. The Colonials held the usual high scoring New York team to 22 points while G. W. looped in 17 out of 22 foul shots. City College showed a better passing attack than any previous team but after Center Kopitko went out on personal fouls, the attack lagged, and Phil Levine, better known to the spectators as No. 8, kept the Big City boys in the running.

Kiesel Good

Hal Kiesel was the outstanding performer for G. W. Besides scoring the first six points, Hal totaled 17 markers and was a life-saver retrieving misses off the backboard. Ben Goldfaden was close on his heels with 10 points, and Bill Noonan scored nine.

Elon nearly surprised an over-confident G. W. team Friday. The home team rolled up a 33-22 lead with 10 minutes to go. Here, Elon disregarded all basketball conventions and threw up every ball they reached.

Tuck, Bradley, and Askew led the parade of pot shooters by let-

That if you don't get in on the bargains now at the semi-annual clearance sale being held by Grosner of 1325 F Street, you'll have to wait six months for another opportunity.—(Adv.)

## Greek Bowling Begins First Week in February

Interfraternity bowling will open the first week in February, Otto Schoenfelder, athletic chairman, stated Sunday night. However, neither the alleys nor league schedule have been completed yet, but will be announced in the next edition of The Hatchet, Tuesday, January 29.

T. U. O. is the defending champion while Acacia was the runner-up last year.

## Various Changes in Basketball Rules Being Tried in Intercollegiate Games

## Two New Opponents Listed By Rifle Team; Opens Against Western Maryland February 9

By Harley Climpson

With the organization of the new rifle league by the National Rifle Association as announced last week, a complete league schedule has been released. Teams appearing on the G. W. rifle card for the first time are the Coast Guard Academy and the U. S. Military Academy. These teams will be met in league matches this year as a result of the re-grouping of teams.

Six members of last year's team and four new men will comprise the varsity rifle team for the coming season as announced by Coach F. T. Parsons, Jr. The six veterans are Neal, Free, Turnbull, Hornbrook, Martin, and Cross, while the men who will be shooting for the first time in "big time" competition are Allen, Mulligan, Gebhard and Miller.

Freshmen Shoot Well

Five freshmen, Davis, Harlan, Johnston, Nash and Wallace, are shooting well enough to classify as a team, but to justify the sched-

## Ghormley Defends Tank Title Feb. 1 In A. A. U. Splash

Schedule Includes Hopkins, W. & L., Lafayette, and Delaware

The George Washington swimming team will make its first home appearance Friday night, February 1, at the Shoreham pool in an A. A. U. meet which will feature the National A. A. U. 220-yard Junior Breast Stroke Championship with Captain Dyer Ghormley representing the Buff and Blue.

Coach Max Rote still has hopes of a trip to the University of Virginia on January 25, but if not it will be made some time after the exams.

The schedule as it now stands includes Washington and Lee, February 8; Johns Hopkins, February 15; Lafayette, February 22; and Delaware, February 28. Except for Lafayette at Easton, Pa., the meets are all at home.

The team will enter the intercollegiate on March 8 and 9 at Pittsburgh and the District A. A. U. on March 22 and 23.

Other teams which are expected to be added within the next week are William and Mary and Swarthmore.

uling of matches an eight-man team is desired. However, if those five men progress sufficiently matches will be arranged for them.

It is hoped that shoulder-to-shoulder matches may be arranged with all league teams, but thus far only two matches have been definitely scheduled. One will be fired with the Naval Academy target-snipers, and the other with Penn State. The latter, a challenge team, will be met on February 16, the date of the Georgetown telegraphic match.

In the event shoulder-to-shoulder matches cannot be arranged with a league team, a competitive match will be fired against a challenge team. The score of this match will also count as a telegraphic match with the league team scheduled for that date.

Ten Men to Shoot

As customary, ten men will shoot in each match with the five high scores counting. On April 16 the National Intercollegiate Matches will be fired with this section firing its matches on the Naval Academy range.

THE SCHEDULE:  
Feb. 9—Western Maryland.  
Feb. 16—Georgetown.  
Feb. 23—Maryland.  
March 2—V. M. I.  
March 9—Coast Guard Academy.  
March 16—U. S. Military Academy.  
March 23—U. S. Naval Academy.

## Cooper to Read Ruediger's Talk On Radio Forum

### Continued Illness of Dean Prevents Personal Delivery

Due to the continued illness of Dean William Ruediger, his speech, to be delivered over Station WMAL at 7:30 Thursday evening, will be read by Dr. William J. Cooper.

The subject will be "Federal Support to Education—With or Without Control," in which he will point out "support" as a permanent factor in education, in contrast to "aid," a temporary factor. The topics discussed in Dr. Cooper's speech on Federal aid last week were held around the bureaucracy of Federal control of educational aid.

He stated that by reason of state lines we are bothered with a great deal of duplication in vocational education. His view is that certain parts of the country should be collected in the various regional divisions, much the same as the state of the Boulder Dam project. He showed that in that project there was a consent granted by the group of states affected before any of the plans were completed. The surrender of the school to the bureau is too complete to be fairly representative of education as a system, according to Dr. Cooper. He believes that this evil is insurmountable as a deterrent to the "aid" program of the Federal Education Commission.

### Engineering Societies Hear Gage Expert

Irvin H. Fullmer, assistant chief of gage section of the Bureau of Standards, who employs optical methods to determine lengths to one-millionth of an inch in his daily work, presented a paper before a joint meeting of the professional sections of the American Society of Mechanical Engineers and the Society of Automotive Engineers at the Potomac Electric Power Co. auditorium, Tenth and E streets northwest, last Thursday at 8 p.m.

### Second Debate Meeting Called

A second meeting for all women interested in collegiate debating will be held tomorrow in Building S, first floor, at 1:30 p.m. Resolved: That the United States

should control the manufacture and sale of arms and ammunition, is the question to be used for the debates.

### Steffan Will Address Gamma Eta Gamma

The Hon. Albert Steffan, member of the legal staff of the Communications Commission, and co-author with Senator Dill of Washington, of the Communications Bill, will speak on "Radio Law" at the regular bi-weekly banquet of Gamma Eta Gamma, national professional legal fraternity, at the University Club, Thursday, at 7:30 p.m.

### Dr. Price Writes Article for Sociology Magazine

Dr. Maurice T. Price, professorial lecturer in sociology, has contributed an article to the December issue of the magazine, Social Forces, which consists of a symposium of articles by leading sociologists of the country on the part that sociologists play in the New Deal.

### Kiesel Stars In C. C. N. Y. Fray

(Continued from Preceding Page) ting loose any kind of shots to bring the score to 34-32. Royce sunk a foul shot with a minute to go to make the count 34-33. The ball remained in Elon territory for nearly the rest of the fray while the Elonians tried fancy shots which curled the head of G. W. rooters more effectively than sister's curling iron but which missed the basket. As the game ended, Kiesel was fouled attempting a basket and made both fouls good. Kiesel Again Stars

For G. W. Kiesel made three field goals and four fouls for 10 points, and Bill Noonan made eight points. Royce, with nine points, and Smith, with eight points, were the Elon stars.

Throughout last week, Clarence Berg was the defensive star, and he scintillated especially against C. C. N. Y.

### Pixlee Returns to Desk After Rose Bowl Trip

The athletic office gets back to normal today as Coach Jim Pixlee returns to his office after a leisurely eastern trip from the Rose Bowl. On his desk Possum Jim finds two serious problems facing him with two of his prize lieutenants deserting the fold.

With Line Coach Walsh already gone and Trainer Logan going South to the Red Sox March 1, Pixlee has the task of filling these gaping holes in his capable staff. While there is no emergency in finding replacements, the Sage of G street will surely not rest easy until these positions have been filled.

## Magazine Takes Narrative Poem Written by Quinn

John R. Quinn, a student of the University, was recently informed of the acceptance by Poetry, a magazine of verse, of a narrative lyric poem, "Beyond the Wall," which he wrote and which will appear in the near future.

An essay entitled "A Handful of Lavender," written by Quinn during this semester in the English rhetoric class, has been accepted for publication by the Commonwealth, a weekly review of literature. Several of his poems have appeared in the poetry magazine, Lyric, and two of his sonnets were recently accepted by Good House-keeping.

## Pharmacy Group To Visit Detroit

### Dean Briggs to Head Delegation; Guests of Parke Davis Company

Plans are practically completed for the visit of about 30 pharmacy students of the Parke Davis Co. in Detroit during the Easter holidays. Dean W. Paul Briggs, of the School of Pharmacy, announced Friday afternoon.

Dean Briggs and Prof. John W. Lee, also of the School of Pharmacy, will accompany the students when they leave Washington on Saturday evening, April 20. They will make their headquarters at the Statler Hotel and will be in Detroit Easter Sunday, and Monday and Tuesday following.

In discussing the trip Dean Briggs said, "Sunday will probably be devoted to sight-seeing in Detroit. We will spend one day at the company's biological farm about 30 miles from the city, which is the largest and best of its kind in the world, and another day at the plant in Detroit."

The students will return to Washington on the evening of April 23, after a banquet given in their honor by their hosts.

Royce Franzoni, chairman of the student committee on arrangements, is arranging for a private car on either the Pennsylvania or Baltimore and Ohio railroads to convey the visitors to and from Detroit.

Last Easter, about 25 students made a visit to the plant of the Eli Lilly Co., manufacturers of pharmaceutical supplies, in Indianapolis, Ind.

### Zoologists Start

#### Informal Teas

Following a recent trend in the various departments for more informal discussion between the faculty and the students, the instructors in the zoology department have inaugurated a series of bi-weekly teas. Both class work and laboratory work will be discussed at these teas.

Professor Willard's philosophy teas were the first to start this new trend on the campus and the public speaking tea last Sunday was the latest development.

### Rodeck Will Address German Club Thursday

Herbert Rodeck, president, will address a meeting of the German Club Thursday at 8 p.m. in Columbian house. He will talk on Germany as seen by him on a trip during the holidays.

### Masters Theses Are Due No Later Than Monday

The last day for receiving theses of candidates for the degree of Master of Arts in February is next Monday, January 21.

### Court Comment

Coach Roland Logan described the new defeat at the hands of Elon as a "psychological let down" . . . Tuffy Leemans is fast developing into a valuable asset to the short pants warriors . . . Milt Schonfeld, the people's choice, continues his clownish tactics in every game . . . Logan listened intently to a description of the Emory-Henry team by one of the great band of Quigley's loiterers the other day . . . this person proclaimed Emory-Henry as "probably the best team in the country" . . . Sil Kopitko, C. C. N. Y. center, proved a great hindrance to the G. W. cause before having to retire on personals . . .

### Britten Replaces Neyland At Tennessee University

W. R. Britten, head track coach and assistant football coach last year, has been named head coach to succeed Major R. R. Neyland at the University of Tennessee for next year. Neyland, who served in the double capacity of football coach and director of the R. O. T. C., was forced to resign his coaching position when he was ordered by the War Department to report for duty in the Canal Zone.

Sexton Returns Jolly Jean Sexton has returned from an extended vacation because of several operations. At his home in Kenneth, Mo., Jean had his tonsils and a cyst on his head removed. He recovered rapidly and returned to Washington after a short time in bed.

## Murphy Elected Congress Head Wednesday Night

### Lloyd, Haynes, Leane, Coleman, Gausmann, Bunch, Are Also Chosen

Richard C. Murphy was elected speaker of the Speakers' Congress last Wednesday night. Others elected were: Lewis Lloyd, speaker pro tem; Hazel Haynes, parliamentarian; Helen Leane, chief clerk; William Gausmann, assistant clerk; Felix Bunch, treasurer, and Ben Coleman, sergeant at arms.

The following new members were elected at the same time: William Derrick, Kate Hopwood, Frances Humphrey, Leonora Long, Roger Power, Lee Roark, and Don Surine.

A proposed amendment to the constitution was introduced by Machin Gardner, providing for two classes of members, associate and active. The associate members would have to meet the present requirements for entrance, according to Gardner's plan, and active members would be those who take part in at least one program a semester. The amendment will be voted on at the next meeting, to be held February 6.

An amendment was introduced to create the office of national coordinator, to organize Speakers' Congresses in other universities throughout the country. This amendment was laid on the table, to be considered at the next meeting.

### Oppenheim Will Address Legal Fraternity Friday

Prof. Saul C. Oppenheim, Law School, will be the principal speaker at a dinner to be held by Alpha Kappa Sigma, national professional legal fraternity, at the Arlington Hotel, Friday at 8:45 p.m.

#### To the Registrar:

The undersigned student, now registered in . . . College Division expects to continue in the University during the second semester of the academic year 1934-35.

Name . . .

Address . . .

(All students of the University, other than Medical students, should fill in and return this notice as soon as possible. The notice may also be mailed to the Registrar's Office.)

## Club to Discuss Alumni Chapter

The Newman Club will hold its regular meeting Thursday at the "Hayloft," in the rear of 1326 Massachusetts avenue, at 8 p.m. The business of the evening will be the discussion of alumni chapter organization, appointment of a delegation to attend the province convention to be held at the University of Pennsylvania in February, and plans for the forthcoming card party. A social meeting with dancing will follow.

Elizabeth Geiger, chairman, announces that the card party will be held at the Willard Hotel February 7. The committee in charge is composed of Belva Hill, Mary Kane, Sara McGrann, Wilbur McNallen, Ralph Northrop, Aileen O'Conner, Milton Schellenberg, and Raymond Stanley.

## Yearbook Plans Informal Pictures

### Snapshots to Supplement Regular March of Events Section

A new page in the feature section of the Cherry Tree, which will be composed of informal pictures of University life, was announced following a meeting of the Cherry Tree board last Tuesday night.

Snapshots, novel pictures of the University, or informal pictures of students, should be turned in to Henry W. Herzog, in the Publications Office.

"This page will serve to the main March of Events section as the Mickey Mouse comedy does to the feature in a movie theatre," stated Richard P. Croyke, feature editor of the Cherry Tree.

Receives Appointment Dorothy Marshall Corson, senior student in the Division of Library Science, received last week the appointment of indexer in the National Geographic Society.

## Davis Discusses Foreign Problems

### Political Authority Speaks to International Relations Club

Speaking under the auspices of the International Relations Club last Tuesday night, Malcolm W. Davis, who recently arrived in this country from Geneva, where he is director of the Geneva Research Center, discussed the complicated and precarious international situation which exists in Europe today.

Regarding the foreign policy of this country, he stated that America is confronted by three alternatives in her relationship to the maintenance of peace. He declared that the United States must either give up some of her ideas concerning "neutral rights" which she has held in the past and which have drawn her into numerous conflicts, must build up and maintain her armed strength so that she might effectively assert her position, or must adopt "the reasonable way" in accordance with her own institutions and principles, of conference, consultation, and cooperation with the other states of the world.

Mr. Davis is qualified to discuss present day affairs, having been since 1931 in charge of the Geneva Research Center, which includes the editing of the publications, "Geneva," and various research studies. He is now chairman of the International Consultative Group in Geneva, which coordinates the work of American and international organizations.

## Two Committees Named By Panhel

At the last meeting of the Panhellenic Association a committee was appointed to draw up rush rules for next year. The committee is composed of representatives from Kappa Kappa Gamma, Alpha Epsilon Phi, and Delta Zeta.

A committee including delegates from Phi Delta, Chi Omega, and Phi Sigma Sigma was also named to make plans for the bridge tournament in February.

## Zoology Students Become Lecturers To Evade Exams

A new type of quiz, featuring an impromptu lecture by each student, has been adopted by the zoology department, according to Dr. Donald B. Young, professor of zoology.

Students are required to give talks on one of the animals they have dissected during the course, explaining its organs, functions, species, phylum, and economic importance, and answering all questions asked by the class and instructor.

This system necessitates a thorough preparation of the subject and it also gives the student valuable experience in impromptu speaking.

## Griggs Sets Up Photo Laboratory

Dr. Robert Griggs, professor of botany, has set up a photographic laboratory in the botany department's new headquarters for the purpose of preparing photographic reproductions of slides and other work for the classrooms.

This laboratory consists of a taking room, dark room, exposing room, and projecting room. The equipment is open to any other departments that may wish to use them.

## Symphony Club to Meet Tonight at Miss Watkins'

Miss Daisy Watkins, former secretary to "Dean" Wilbur, now in Mrs. Barrows' office, will hold a meeting of the Symphony Club at her home at 1429 Clifton street this evening at 8 o'clock. Miss Christine Church and Miss Edith Athey will sing and play the piano before the meeting.

## Ashford, Phillips, Address A. I. E. E.

### Discussion Concerns Railway Signalling and Train Control

Major S. D. Ashford, expert on train control and signalling for the Interstate Commerce Commission, and E. J. Phillips, of the Pennsylvania Railroad signal department, spoke at a meeting of the student branch of the American Institute of Electrical Engineers last Wednesday evening in Corcoran Hall.

Railway signalling and train control were the topics on which Mr. Phillips spoke. He discussed general rules of railroad operation, types of signalling, and methods of operation, centralized traffic control, highway crossing protection, and car retarders, showing the opportunities afforded the electrical engineer for practice in this field. The main principles discussed were illustrated with lantern slides.

Slides showing portions of main line railroads in the United States on which train control and signaling equipment has been installed were presented with discussions of each by Major Ashford.

Electrification of the Great Northern Railroad in the Cascade Tunnel was shown in moving pictures.

## '23 Medical Graduate Is Visiting in Washington

Dr. Pak Chu Chan, Medical School '23, is visiting in Washington. His trip to America has been of a clinical nature. Later this year he will make a brief study in Europe and then cross the continent to his home in Canton, China, where he conducts his own hospital.

Did you ever notice..in a roomful of people..the difference between one cigarette and another..and wonder why Chesterfields have such a pleasing aroma

Many things have to do with the aroma of a cigarette . . . the kind of tobaccos they are made of . . . the way the tobaccos are blended . . . the quality of the cigarette paper.

IT takes good things to make good things.

Someone said that to get the right aroma in a cigarette, you must have the right quantity of Turkish tobacco—and that's right.

But it is also true that you get a pleasing aroma from the home-grown tobaccos . . . tobaccos filled with Southern Sunshine, sweet and ripe.

When these tobaccos are all blended and cross-blended the Chesterfield way, balanced one against the other, you get a flavor and fragrance that's different from other cigarettes.
